Volume 75—Contents

NO. 1. JANUARY 1995

1 Central Control of Breathing in Mammals: Neuronal Circuitry, Membrane Properties, and Neurotransmitters
Armand L. Bianchi, Monique Denavit-Saubié, and Jean Champagnat

47 Physiological and Molecular Mechanisms Involved in Nutritional Regulation of Fatty Acid Synthesis
F. Bradley Hillgartner, Lisa M. Salati, and Alan G. Goodridge

77 Experimental Basis for Neural-Immune Interactions
Kelley S. Madden and David L. Felten

107 Corticocortical Connections in the Visual System: Structure and Function
Paul-Antoine Salin and Jean Bullier

155 Gastric Acid Secretion
S. J. Hersey and G. Sachs

191 Physiology of Penile Erection
Karl-Erik Andersson and Gorm Wagner

NO. 2. APRIL 1995

237 Humoral Thermogenesis and Its Role in Maintaining Energy Balance
L. Janský

261 ATP-Dependent Transport Systems in the Canalicular Membrane of the Hepatocyte
Zenaida C. Gatmaitan and Irwin M. Arias

277 Neuropeptides as Regulators of Airway Function: Vasoactive Intestinal Peptide and the Tachykinins
Carlo A. Maggi, Antonio Giachetti, Richard D. Dey, and Sami I. Said

323 Influence of Extraocular Muscle Proprioception on Vision
P. Buisseret

339 Acetylcholine Receptor Gene Expression at the Developing Neuromuscular Junction
Aymeric Duclert and Jean-Pierre Changeux

369 Vesicular Neurotransmitter Transporters: From Bacteria to Humans
Shimon Schuldiner, Anat Shirvan, and Michal Linial

393 The Septohippocampal Pathway: Structure and Function of a Central Cholinergic System
Patrick Dutar, Marie-Hélène Bassant, Marie-Claude Senut, and Yvon Lamour

NO. 3. JULY 1995

429 Cellular Calcium Transport in Renal Epithelia: Measurement, Mechanisms, and Regulation
Peter A. Friedman and Frank A. Gesek

473 Pathophysiology of Insulin Resistance in Human Disease
Gerald M. Reaven

487 Regulation of Differentiation of Vascular Smooth Muscle Cells
Gary K. Owens

519 Flow-Mediated Endothelial Mechanotransduction
Peter F. Davies

561 Modulation of Epithelial Permeability by Extracellular Macromolecules
Simon A. Lewis, Jamie R. Berg, and Teri J. Kleine

591 The Asialoglycoprotein Receptor: Relationships Between Structure, Function, and Expression
Richard J. Stockert

611 Local Control of Veins: Biomechanical, Metabolic, and Humoral Aspects
Emil Monos, Viktor Bérczi, and György Nádasy

NO. 4. OCTOBER 1995

667 Insights Into Cellular Energy Metabolism From Transgenic Mice
Alan P. Koretsky

689 Nonsynaptic Modulation of Neuronal Activity in the Brain: Electric Currents and Extracellular Ions
J. G. R. Jefferys

725 Cyclic Nucleotide Phosphodiesterases: Functional Implications of Multiple Isoforms
Joseph A. Beavo

749 Human Surfactant Protein B: Structure, Function, Regulation, and Genetic Disease
Jeffrey A. Whitsett, Lawrence M. Nogee, Timothy E. Weaver, and Ann D. Horowitz

759 Anatomy and Electrophysiology of Fast Central Synapses Lead to a Structural Model for Long-Term Potentiation
Frances A. Edwards

789 Dynamics of Nerve-Muscle Interaction in Developing and Mature Neuromuscular Junctions
Alan D. Grinnell

835 Role of Microtubule-Associated Proteins in the Control of Microtubule Assembly
Ricardo B. Maccioni and Verónica Cambiazo

865 Ion Channel Regulation by G Proteins
Kevin Wickman and David E. Clapham

887 Index
